Connie,

We need assistance from your office at the meeting on September 5, 2013, scheduled with Curt Grisham regarding the Arkwood Superfund.

Mr. Grisham is comparing the information on the web between the Arkwood site and a site in Region 9. We need someone from your office at the meeting that will help explain/respond to the questions/issues that Mr. Grisham has. Thanks CAS

Hi Curt,

I have received the following email with attachments. As a request (and in an effort to consolidate important issues into one list), can you add the subject matter from the email into your agenda and send one final agenda? Thanks.

Also, while there are no current plans for a slide show on Section V, the received email and attachments will all be part of the official record for our Sep 5 meeting, as requested. I have also shared them with my management (along with the rest of Section V) to be considered for internal follow-up action. I can assure you that your suggestions, examples, and experience as detailed in Section V (and related emails and attachments) will all be considered and that an update is planned to be given at our meeting on those items.

Thanks,

Stephen L. Tzhone

Can you send a slide show as backup to a part V item?

If not here's the pdf also; I recommend that no one try printing it unless they want to waste a lot of black ink and paper.

I'll make it one simple item in part V. and management can look at this backup if they are willing to
